

Why Summer Reading?

Although summer is a time for students to rest and relax, it is also crucial that students make time to read.

Studies show that students who read books over the summer “maintained or improved their reading skills, while kids who didn’t read any saw their skills slip by as much as an entire grade level” (Fiore).

This year’s summer reading program is all about choice. The ELA teachers have provided students with book lists geared towards a variety of interests and reading levels.

This pamphlet provides information about where to obtain books from the summer reading lists.

Happy reading!
